Heating Assistance Programs for Winter 2008/2009

No one should face the winter months without heat or electricity. The township works in partnership with area agencies to provide heating assistance, whether it's electricity, natural gas, or heating oil. From now until May 15, 2009, the trustee's office serves as an intake site for the Energy Assistance Program in partnership with Community Action of Greater Indianapolis (CAGI). To qualify for Energy Assistance, household income cannot exceed 150 percent of the federal poverty level (\$31,800 a year for a family of four). Also, to apply through the township, applicants must not already be in disconnect status. Those individuals must call 1-866-565-0197 (CAGI) to schedule an appointment. From January 2009 through May 2009, the trustee's office will also serve as an intake site for the Winter Assistance Fund program. This program assists individuals who are not eligible for the Energy Assistance Program. Applicants for Energy Assistance and Winter Assistance will be seen by appointment only; please call 327-8947 for more information.

Township Considers Year-Round Calendar for All Schools

Warren Township school officials are wondering whether all schools in the district should run on the same schedule. Currently, five of the district's fifteen schools follow a year-round calendar that features a shorter break in the summer and two additional three-week breaks during other parts of the year. All district schools, traditional and year-round, follow a 180-day school calendar, but officials are studying the possibility of standardizing their school calendar districtwide for Grades K-8. Community members are invited to express their opinions at a forum on the subject at 7:00 p.m. on November 5 at the Warren Education and Community Center (975 N. Post Road).
